

## Jelly Roll Quilt

Fabric Needed: One Jelly Roll (Forty 2 1/2" x width of fabric strips)

1. Sew all your strips together end to end, either straight across or on a diagonal as you do your binding. You'll end up with one long strip 2 1/2" x approx. 1600".
2. Cut 18" off one end to help your quilt look random when sewing.
3. Find the beginning and the end of your strip. Place right sides together and start sewing with 1/4" seam all the way down. When you get down to the end, use a pair of scissors to cut the jelly roll in half and sew the rest of the seam. You'll now have a strip 4 1/2" x approx. 800".
4. Locate the beginning and the end of the strips again. Put those right sides together and sew a quarter inch seam all the way down. Get to the very end, use your scissors to cut in half, and sew the rest of the seam. You'll now have a strip 8 1/2" x approx. 400".
5. Repeat step 4, (3) more times. You'll now have a finished quilt top, approx. 48" x 64".
6. Press your seams, trim up the sides and quilt as desired!
