

Card Trick Baby Quilt

Materials needed:

From each of a white and print fabric:

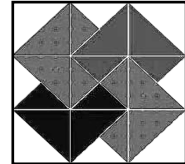

18 - 5 ¼" x 5 ¼" squares - cut in half diagonally, making 36 triangles

18 - 4" x 4" squares - cut in half diagonally, making 36 triangles

From each of two solid fabrics (solid A and solid B):

9 - 5 ¼" x 5 ¼" squares - cut in half diagonally, making 18 triangles

9 - 4" x 4" squares - cut in half diagonally, making 18 triangles

From Print: 5-2½" strips for inner border

From Solid A: 5-3½" strips for outer border

Block Construction:

Work each block in three horizontal rows of three small blocks.

Example:

top row left - sew large print triangle to large white triangle

top row middle - sew small white triangle to small print triangle - press - sew to large solid A triangle

top row right - sew large solid A triangle to large white triangle

Join together to create the top row

Continue in this way for the remaining rows and then join the three rows to create a single block. When finished, you should have nine blocks measuring 13" x 13" each.

Finishing the Quilt-

Stitch together three strips of three blocks each to create quilt top. (See image of completed quilt)

Stitch Border 1 (2½" wide strips of print fabric) to top, bottom and sides of quilt top.

Add Border 2 (3½" strips of Solid A) in same manner.
